- **Spurious pools:** identification, management, and clear communication to indexers and data providers to avoid mis-routing.

- **Initial range:** target **0.995–1.005** USDT per USDTz; execute micro-swaps post-liquidity add for range conditioning.

Disclosures

- **Brand:** not affiliated with Tether.
- **Priority of evidence:** **on-chain** data prevails over documents.
- **Transparency tooling:** public CSV registry (GitHub Pages) and routine updates.
